

*Dear Sir/Madam,*

*We are one of the leading teams at the competition of making self-driving cars, we have consistently shown that our team is the best. We wish to partner with you and would like you to join our team. We believe that our product will be a good way to advertise your product to the relevant crowd as we being a good competitor in the competition has good eyes on us.*

*Luminar Technologies' products have been of immense value and effectiveness, which has led us to deliver you a partnership proposal. We believe with us working together, we both can be benefited.*

*As our product is about self driving cars, your Lidar Scanners are of great importance in our product and it would be appropriate for considering your company as sponsor for our vehicle.*

*We would like you to consider our proposal of sending some of your hardware as part of the sponsorship so that we can build our product and showcase it in the competition.*

*Our team is keen to hear back from you.*

*Regards,*

*Vansh Gangwal*

*From Team Abhiyaan*
